EDUCATION

SRM Valliammai Engineering College — B.E. Cyber Security 2024 – 2028 (Expected)
CGPA: 7.99 / 10 (up to Semester 3) | Kattankulathur, Chennai
Affiliated to Anna University | NBA & NAAC 'A' Grade Accredited Institution

TECHNICAL SKILLS

Cybersecurity: Cloud Security, Threat Analysis, CTF	Data Analysis: Big 4 Ready, Excel, SQL	AI / Automation: Prompt Engineering, N8N(Udemy – learning)
Languages: Python, MySQL, base of other langs	Tools: Wireshark, Nmap, basic SIEM	Other: Game Dev (Simulator), Linux CLI

INTERNSHIP EXPERIENCE

Cybersecurity Intern — Corizo (IIT Bombay Mood Indigo) Mar 2026 – Apr 2026 | Remote

- Completed a certified cybersecurity internship (Corizo Dice ID: CRZ096462) focused on practical security concepts, threat analysis, and active participation in real-world scenarios.
- Demonstrated diligence, consistency, and innovation throughout the internship period; certified by Academic Head, Corizo.
- Also completed a parallel Cybersecurity Training certification (CRZ150284) covering foundational-to-intermediate security domains from 05 March to 05 April 2026.
- Corizo is MSME, NSDC, Skill India, and ISO 9001 certified — part of IIT Bombay's Mood Indigo initiative.

PROJECTS

TalentOS — AI-Powered Recruitment System Semester 4 | 2026

- Built an end-to-end recruitment automation platform using N8N workflow automation and AI-driven candidate screening.
- Integrated resume parsing, scoring, and shortlisting pipelines; reduced manual HR effort significantly.
- Designed the backend data flow and prompt engineering layer for AI-based ranking of applicants.

CyberLab — Personal Security Practice Environment 2025 – Present

- Designed and deployed a personal cyber lab using real-world tools (Nmap, Wireshark, Metasploitable) for hands-on practice.
- Built isolated environments to simulate penetration testing, vulnerability scanning, and network traffic analysis.

Car Simulator Game 2025

- Developed a car simulation game using game engine tools; implemented physics-based mechanics and collision detection.
- Strengthened understanding of programming logic, 3D space math, and interactive software design.

CERTIFICATIONS

Data Analyst – Big 4 Ready — One Roadmap Apr 2026
Introduction to Cybersecurity Awareness — HP LIFE (HP Foundation) Dec 2025
Cloud Security (Value Added Course) — SRM VEC – Dept. of Cyber Security Feb – Mar 2025
IBM Z Datathon 2025 – Participation — IBM / Shooting Stars Foundation 2025

ACHIEVEMENTS & ACTIVITIES

- 2nd Place — Decrypt O Mania 2.0 (Technical CTF Event), Dept. of Cyber Security, SRM VEC | Oct 2025
- Participant — National Conference on "Recent Research Directions and Advancements in Mathematics", SRM VEC | Dec 2024
- Active member — Whitehatians Club, SRM VEC (Cybersecurity community club)
- Participated in multiple Capture the Flag (CTF) competitions on platforms like CTFtime and others.
